

Dear Parent,

It's important that we engage our children with activities, to foster learning and growth. While doing so, however, it becomes difficult to get a night off for ourselves, between caring for our children and fulfilling their needs.

SCOPE, under the auspices of the SKN Foundation, has created Parents' Night Out, a program that will be held for children with special needs and their siblings, between the ages of 5 years and 21 years. We have proposed to begin this program at the Cedar Hill Prep School in Somerset, New Jersey on Friday evenings once every month. This program will allow parents to take some time off from child care and allow their children to interact in a group environment with others. With the collaboration of volunteers and health-care providers, children will be exposed to a wide range of sensory-aware activities, through which they can enjoy Friday nights with their close friends.

To participate in this program, families must complete a Registration and Participation Form along with a Medical Clearance. Participants are welcome to join at any time throughout the year.

If you have any questions about this program, please do not hesitate to reach us at [thesknfoundation@gmail.com](mailto:thesknfoundation@gmail.com).

Sincerely,

The SKN Foundation
